iOS Developer

UIKIT | AVFOUNDATION | MVVM | COREDATA | STOREKIT | FIREBASE | COMBINE

Senior iOS Developer with 6 years of experience specialising in AVFoundation, app performance optimisation, and scalable MVVM architecture. I've built and launched full-stack iOS apps from scratch across social media, e-commerce, and healthcare — including a platform with real-time video handling, premium subscription features, and a dynamic feed. I focus on delivering clean, maintainable code, high-impact features, and user-first design.

WORK EXPERIENCE

Hushbunny - Washington, DC (Remote)

April 2024 - August 2025

Senior iOS Developer

Appstore: <https://apps.apple.com/app/id1633444164>

Developed the Hushbunny iOS application from the ground up, focusing on scalable architecture, media handling, and offline capabilities using Core Data. Oversaw end-to-end feature development, including video workflows and subscription integration. Delivered a stable, user-centric app now live on the App Store.

- Developed the core feed module with image and video posts, editing, real-time previews, background uploads and compression using **AVFoundation**.
- Architected the application using **MVVM**, enabling clean separation of concerns, testability, and long-term scalability.
- Integrated StoreKit for premium subscriptions with trials, cross-device sync, plan upgrades, and expiry handling with user data download support.
- Build custom UI components including a video trimming interface, interactive calendar picker, and reusable modules for post creation, profiles, and comment threads.
- Manage full App Store release cycle, including sandbox testing, submission, and iterative updates based on product roadmap.

eBizTrait Technolabs - Ahmedabad, Gujarat (Remote)

August 2021 - December 2023

Senior iOS Developer

Appstore: <https://apps.apple.com/app/id1597794737>

Worked on multiple high-scale e-commerce and healthcare apps, focusing on scalable architecture, API integration, and app stability across devices.

- Developed and maintained iOS applications for e-commerce platforms, enhancing user flows, checkout systems, and product browsing experiences.
- Integrated RESTful APIs, Firebase, HyperPay SDK, and Google Maps to support real-time order tracking, secure payments, and location-based services.

- Optimised app performance and memory usage using **ARC**, ensuring stable and resource-efficient applications.

Acentria Softwares - Jaipur, Rajasthan

November 2019 - August 2021

iOS Developer

Contributed to the development and maintenance of ongoing iOS projects, including large-scale, real-time applications in the fantasy sports and gaming domain.

- Built fantasy sports modules including match listing, team creation, and live leaderboards.
- Integrated REST APIs for real-time updates and ensured smooth event performance.
- **Impact:** Helped scale app usage during live matches with thousands of concurrent users.

Mansa Infotech - Mohali, Punjab

May 2019 - November 2019

Junior iOS Developer

Began my iOS development journey by contributing to dynamic app features while rapidly building a strong foundation in Swift and app architecture.

- Collaborated with senior developers and cross-functional teams on feature development, bug fixes, and UI enhancements.
- Participated in code reviews and technical discussions to deepen understanding of iOS best practices.
- Gained hands-on experience with Swift syntax, clean coding practices, and proper project structure.

PROFESSIONAL SKILLS

- Implemented real-time features including video trimming, background uploads, and media compression using AVFoundation and AVKit.
- Experienced with Apple's Core Frameworks including Core Data, Core Animation, and Core Location.
- Developed offline content handling and local caching for seamless feed browsing using Core Data.
- Proficient in Git, TestFlight, App Store Connect, Xcode debugging tools, Firebase, push notifications, and deep/universal linking.

EDUCATION

R.C Khaitan Polytechnic College - Jaipur, Rajasthan

Computer Science Engineering (Polytechnic - 3 Years), 2015 - 2018
